2. **Open the paytable once.** It lists what every symbol pays and how the features start on that machine.
3. **Press Spin.** Every spin is random and independent of the one before.
4. **Watch for the wild:** T-Rex on Reel 3, Doubles Wins. A wild stands in for other symbols to complete a win.
5. **Watch for the scatter:** Dinosaur Egg, Pays from 2. Scatters usually count wherever they land.
6. **Know the bonus.** Free Games: Up to 10 Free Spins per Egg.
7. **Set a limit before you start** and stop when you reach it, win or lose.

HOW THE FEATURES WORK

Wild symbol. The T-Rex is the wild and is found only on the centre reel. He substitutes for all symbols except the scatter and doubles the win. Despite being on only one reel, you are going to see a lot of him.

Free spins. Three or more egg scatters start the free games. First you pick an egg for each scatter, and each one reveals up to ten free spins. Then, in the round, the T-Rex eats the other dinosaurs on the screen and turns them into wilds.

QUICK ANSWERS

How do the free spins work on T-Rex? Each triggering egg reveals up to 10 free spins, and in the round the T-Rex turns other dinosaurs wild.

Where does the wild appear? Only on the centre reel.

PLAY IT SMART

- No slot is ever due. A long dry spell does not make a win more likely.
- Bigger bets do not change the odds of a win, only its size and the cost of each spin.
- The payout percentage is a long-run average, not a promise for one session.
- Play with money you can afford to lose, and take breaks.
