HOW TO PLAY

1. **Set your bet.** Total bet = bet per line × lines played. All 15 lines at 1¢ is $0.15 a spin.
2. **Open the paytable once.** It lists what every symbol pays and how the features start on that machine.
3. **Press Spin.** Every spin is random and independent of the one before.
4. **Watch for the scatter:** Pays Anywhere. Scatters usually count wherever they land.
5. **Know the bonus.** Bonus Round: 15 Free Games at 3X.
6. **Set a limit before you start** and stop when you reach it, win or lose.

HOW THE FEATURES WORK

Free spins. The scatter pays anywhere on the reels, and three or more of them award 15 free games with every win tripled. The free games can be retriggered, and players report that they retrigger often, which is where the big sessions on this machine come from.

Wilds and the gamble feature. The wild symbol substitutes for the regular symbols to complete winning lines. After any win you can also gamble it on the turn of a card. Guess the colour and the win is doubled. Guess wrong and it is gone.

PLAY IT SMART

- No slot is ever due. A long dry spell does not make a win more likely.
- Bigger bets do not change the odds of a win, only its size and the cost of each spin.
- The payout percentage is a long-run average, not a promise for one session.
- Play with money you can afford to lose, and take breaks.
