HOW TO PLAY

1. **Set your bet.** Total bet = bet per line × lines played. All 25 lines at 1¢ is $0.25 a spin.
2. **Open the paytable once.** It lists what every symbol pays and how the features start on that machine.
3. **Press Spin.** Every spin is random and independent of the one before.
4. **Watch for the wild:** On All Reels. A wild stands in for other symbols to complete a win.
5. **Know the bonus.** Bonus Round: 10 Free Games.
6. **Set a limit before you start** and stop when you reach it, win or lose.

HOW THE FEATURES WORK

Wild transformation. There is a magic portal in the centre row of reel 1 and another on reel 5. If the same symbol lands inside both portals, every one of that symbol on the reels, including the two in the portals, is transformed into a wild.

Free spins. You only need two feature symbols to trigger the free games. The "Free Spins" symbols must stop inside the magic portals on reels one and five, and you are awarded 10 free games. You can trigger the feature again during the bonus.

QUICK ANSWERS

What is Magic Portals' RTP? 96.6% over the long run.

How do the magic portals work? When the same symbol lands in the portals on reels 1 and 5, all of those symbols on the reels turn wild.

PLAY IT SMART

- No slot is ever due. A long dry spell does not make a win more likely.
- Bigger bets do not change the odds of a win, only its size and the cost of each spin.
- The payout percentage is a long-run average, not a promise for one session.
- Play with money you can afford to lose, and take breaks.
